Show Report

AUTOMATION 2010

5th International Automation Exhibition & Conference

Automation Exhibition showcases the power of Collaboration between Solution providers i.e. vendors, engineering companies & actual users of the technology. Technology is shaping tomorrow's world. One of the driving forces behind future technological developments is Automation & Automation 2010 exhibition, which showcases technological growth in products, software's & services provided by solution providers is a great success.

We are aware that we had some lower strength on second day due to Ganapati Festival. Automation 2010 is being conducted for the 5th time in a row and our shows were held in 2002,2004, 2006 & 2008.

Concurrently we had 4 day conference with Safety Instrumented Systems on the 21st September, Foundation Fieldbus Conference on 22nd, Profibus Conference on 23rd and Wireless & Factory Automation Conference on the 24th September 2010

Number of Participants, Co-exhibitors & represented companies	681
Number of Trade Visitors	33147
Number of Student Visitors	4000

Type :	Trade Show & Conference	Next Event	Sept 2011	Organizers	IED Communications Ltd.

Product Range

Automation assembly, systems and engineering
Building Automation
Bus Technologies
Controllers
Control systems, monitoring systems
Conveyor Systems
Electrical Measuring Instruments & Systems
Electrical, pneumatic and hydraulic energy supply
Engineering, maintenance, services
Factory automation
Field Instrumentation
Grippers, clamping and stop devices
Hydraulics and pneumatics
Industrial robots, Robotics
Lasers in material processing systems
Machine vision
Material Handling Equipment
Measuring devices and measuring systems
Motion and drives and Positioning systems
Process Measurement and Automation
Pumps & Valves
Safety and monitoring devices
Sensors
Software & Testing Systems
